INDEPENDENT AUDITORS' REPORT ON THE FINANCIAL STATEMENTS OF DEVELOPMENT BANK OF ETHIOPIA SMALL AND MEDIUM ENTERPRISE FINANCE PROJECT (SMEFP)

We have audited the accompanying financial statements of the Small and Medium Enterprise Finance Project (SMEFP) financed by the International Development Association, and the European Investment Bank through credit Number 57930 - ET comprising the statement of financial position as at July 7th, 2020 and the Statement of Sources and Uses of Funds for the year then ended, and a summary of significant accounting policies and other explanatory information shown from pages 3 to 16.

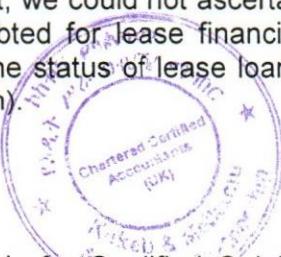

Basis for Qualified opinion

We conducted our audit in accordance with the International Standards on Auditing applicable to the audit of financial statements. Furthermore, we have audited the Project's compliance with the provisions and covenants of the International Development Association (IDA LOAN No. 57930 - ET), the European Investment Bank Financing Agreements.

Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Organization in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accounts (IESBA Code) together with the ethical requirements that are relevant to our audit of the financial statements in Ethiopia, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our qualified opinion.

The Project Coordination unit does not maintain a separate financial record for the Small and Medium Enterprise Finance Project (SMEFP). The quarterly and annual statement of the Project is prepared based on different information and reports extracted from the Bank's operational units and financial institutions, which handle the working capital financing. As a result, we could not ascertain completeness of lease financings, list of SME' which are currently indebted for lease financing together with their loan status, list of SME's in the process of financing, the status of lease loans, foreign currency gains earned from the fund management (Birr 181.4 million).

Qualified Opinion

In our opinion, except for the effects of the matter described in the Basis for Qualified Opinion paragraph, the financial statements present fairly, in all material respects, the financial position and balance of the Small and Medium Enterprise Finance Project (SMEFP) implemented by the Development Bank of Ethiopia, the Statement of Sources and Uses of Funds for period covering July 1, 2019 up to June 30, 2020 in accordance with the financial management policy of Development Bank of Ethiopia adopted for the Project. In addition, the Project was, in all material respects, in compliance with the Financing Agreements and Contracts.

With respect to the statements of sources and uses of funds submitted during the period listed on page 4, in our opinion:

- (a) The statements, together with the procedures and internal controls involved in their preparation, can be relied upon to support the related withdrawals;
- (b) The proceeds of the Designated account have been used exclusively for eligible expenditures and provisions and covenants of the Financing Agreement and Separate Agreement have been substantially respected.

Management's Responsibility for the Financial Statements

The management is responsible for the preparation and fair presentation of the financial statements in accordance with the accounting policies of the Project, and for such internal control as management determines is necessary to enable the preparation of a project report that is free from material misstatement, whether due to fraud or error.

Auditor's Responsibility for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the project report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

The engagement partner on the audit resulting in this independent auditor's report is Ato Kokeb Moges.

**DEVELOPMENT BANK OF ETHIOPIA,
SMALL AND MEDIUM ENTERPRISE FINANCE PROJECT (SMEFP)
LOAN No. 57930-ET
OR THE YEAR ENDED 30 JUNE, 2020**

1. BACKGROUND

The Federal Democratic Republic of Ethiopia (GoE) signed an agreement with International Development Association (IDA) and European Investment Bank (EIB) on June 15 2015 for **Small and medium Enterprise Finance Project (SMEFP)** IDA will finance the project by investing 200 million US Dollar and 76 million Euros. The project will be active up to August 31, 2022.

The Project Development Objective of SMEFP is to increase access to finance for eligible small and medium enterprises in Ethiopia based on eligibility criteria and the final project beneficiaries will be eligible SMEs operating in the manufacturing and agro-processing industries.

The SME Finance project will have four components, namely; (i) Financial Services to SMEs (ii) Enabling Environment for SME Finance; (iii) Business Development Services to SMEs; (iv) Project Management, Communication and Impact Evaluation.

Component 1 – Financial Services to SMEs

The objective of this component is to establish a credit facility providing access to finance for (a) working capital and leasing finance for participating financial institutions (PFIs) which in turn lend to eligible SMEs and (b) leasing finance for eligible SMEs. This liquidity support will be complemented with mandatory technical assistance aimed at supporting PFIs in designing, piloting and rolling out financial products utilizing novel lending methodologies (e.g. cash flow-based lending) to successfully expand their outreach to the target SMEs. The technical assistance support will be funded externally through bilateral agreements with development partners.

Component 2 – Enabling Environment for SME Finance

- a) The objective of the second component is to improve the enabling environment for facilitating SME finance in Ethiopia. This would require the following:
- b) creation of a collateral registry that would support both the lending and the leasing business;
- c) a diagnostic of the insolvency and creditor/debtor regime to address key bottlenecks to SME lending;

Component 3 – Business Development Services to SMEs

The objective of the third component is to support SMEs through the provision of tailored Business Development Services (BDS) to address constraints on the demand side. BDS support to SMEs can address (but is not limited to) the lack of capacity to develop bankable business plans, the poor quality of financial statements and records, the inability to manage risk, the lack of knowledge of business development and management, the lack of adequate collateral, etc.

Component 4 – Project Management, Communication and Impact Evaluation

The objective of the fourth component is to support overall coordination of project activities, and to rigorously measure the impact of the project on the growth of participating SMEs. The two main implementers of the project will be the Development Bank of Ethiopia (DBE) and the Ministry of Industry (MoI).

These financial statements only relate to the activity of component 1. Activities from Component 2 to Component 4 are handled by the Federal Small and Medium Manufacturing Industry Development Agency

2. ACCOUNTING POLICIES

The Development Bank of Ethiopia follows the generally accepted accounting principles on cash basis of accounting system with double entry recording taking into account the decentralized accounting structure of the project. In preparation and presentation of the financial statement, the project uses principal policies such as

a) Income and expenditure recognition

The income is recognized on the basis of actual cash receipt from the World Bank and the European Investment Bank. Expenditure are recorded on lease financing operation started and money is transferred to other financial institutions

c) Foreign currency transactions.

Transactions in foreign currencies are translated using the exchange rate prevailing on the date of the transaction. Transactions are recorded in local currency, Birr. Expenditures in local currency are converted to USD/EURO, when the reports in USD are needed, at the exchange rate on the latest date of funds received from financer.
